

**PCA officials visit local lambanog production site**

TAYABAS CITY, QUEZON - PCA team headed by Acting Regional Manager III Ramon Rivera and Quezon I Chief Joselito Alcantara visits Capistrano lambanog distillery and coconut sap production farm in Tayabas City.

The trip is an offshoot of the 2nd Regional Consultative Forum on Lambanog Industry held in Majayjay, Laguna a few weeks ago wherein Capistrano owner, Isabelita Capistrano raised her concern on aging coconuts in her farm resulting to their now towering heights.

To address the situation, PCA committed to provide dwarf coconut planting materials to Capistrano for her to establish a new coco sap production farm. With that, lambanog industry can continue to prosper in the area thereby supporting its stakeholders as well as the surrounding community that are dependent on the industry.

Manager Rivera hopes to visit more farms and offer potential solutions to their circumstances
