

DA-BPI joins Locally Sourced in Galleria South

The Bureau of Plant Industry (BPI) participates in Locally Sourced event in Robinsons Galleria in San Pedro Laguna on November 19-22.

Locally Sourced is a joint project of Robinsons Malls, RestoPH and Department of Agriculture (DA) to bring fresh and locally produced fruits, vegetables, dairy products and seafood in a spacious, clean and safe venue both for farmer-sellers and buyers.

The fair also showcases assorted plants, succulents and garden inputs for plantitas and plantitos out there.

On the first day, Mr. Roland Villa of BPI-CRPSD conducted a Plant Propagation seminar and shared tips on gardening. This was streamed live on Galleria South's FB page.

BPI is set to give free seeds, seedlings, production guides or IEC materials and technical advice to those who will visit its booth.
