VARIETY IMPROVEMENT AND PEST MANAGEMENT SECTION

Propagation I, PHIL 2019 Series

- Date of Completion of Study: October 2023
- Date of Completion of Terminal Report: October 2023

Thirty promising Phil 2019 Series clones were planted and maintained in SRA-LGAREC from March 2023 to October 2023 in preparation for Propagation II. The canepoints to be produced will be further propagated to increase number of planting materials needed for the Ecological Test in different locations nationwide.
