	A.33	Certificate of Conformity of the unit/model from BAFE OR AMTEC test report which must be submitted together with the bidding documents or during postqualification evaluation.	Certificate of Conformity of the unit/model from BAFE OR AMTEC test report which must be submitted together with the bidding documents or during postqualification evaluation. (Maximum PTO Power Required, Percentage PTO Power of the Engine Power, Specific Fuel Consumption and the like.) We would like to ask that the requirement of Certificate of Conformity will be an option since during the evaluation, all the technical specification required can be referred to the AMTEC test Report for its compliance. We have also asked our supplier for the Certificate of Conformity and according to them, the BAFE has denied all requests of the manufacturer/distributor for Certificate of Conformity for the tractors with 90-95 hp Rated Power since it has not complied with the drawbar requirement according to BAFE in reference to PABES 301:2020.	Granted

			Request to add the following specifications considered advantageous to the agency: % PTO Power of the Engine Power: 85%, minimum Fuel Consumption: 21 L/hr, maximum Specific Fuel consumption: 350 g/kW-hr, maximum	Denied
